The **Logo** of the project **ADULT-EMPOWERS** has been created. The logo depicts a drop of water, in which a plant is grown, symbolizing the need for taking actions and motivating the adult European citizens towards the proper use of water and wastewater management in the modern EU societies due to the climate crisis. The blooming plant in the logo represents the need of cultivating knowledge and skills to adults for environmental sustainability. These are also the main objectives this project wants to address.
